Personal Projects

•Portfolio Website *2026*
HTML, CSS, JavaScript, Git, GitHub

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, achievements, and professional experience.
- Implemented structured project sections with detailed descriptions, feature highlights, and interactive navigation for easy content exploration.
- Added a contact/inquiry form and optimized the website layout for responsive viewing across desktop and mobile devices.

•Book Recommendation Engine *2026*
Python, Pandas, NumPy, Scikit-learn

- Developed a Python-based recommendation engine that suggests books based on user preferences collected through an interactive questionnaire.
- Implemented data processing and preference-matching logic to generate personalized recommendations from a structured book dataset.
- Integrated recommendation results with relevant online sources, allowing users to explore suggested books and their details.
